

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

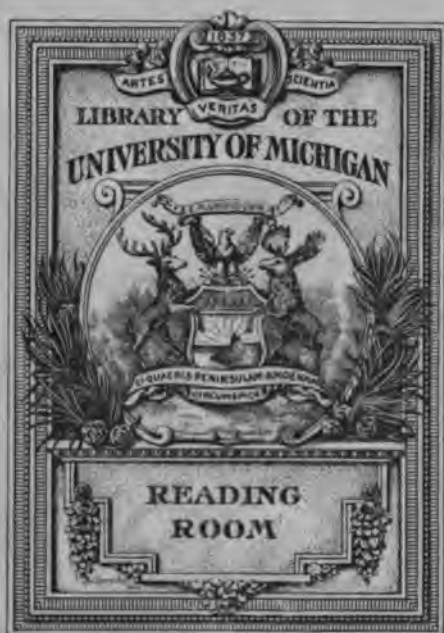

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

PREFATORY NOTE

Three sources have been drawn upon for the present compilation: one, a group of lists issued under the direction of the former Chief Bibliographer, now the Chief Assistant Librarian, namely, "Banks and banking, 1903," "First and second banks of the United States, 1908," and "Currency and banking, 1908;" another, material brought together by the present Chief Bibliographer in various typewritten lists with a view to supplementing the group just mentioned and laying particular stress on certain phases of the subject in its recent development; and finally, an independent undertaking begun by the present Chief of the Periodical Division during his service as librarian of the National Monetary Commission.

The present compilers are therefore mainly responsible for the references to writings of a date later than any in the printed lists mentioned above, and writings chosen with particular regard to present aspects of the monetary question. The resulting list is broad in the area covered rather than all-inclusive of the resources of the Library of Congress, or of the library of the National Monetary Commission. The latter was transferred to the Library of Congress by the act of August 23, 1913, and the list here offered is also, in a certain sense, a catalogue of the more serviceable part of the collection made by the Commission.

In handling such an extensive literature, a classification which separated foreign countries from the United States was found convenient. In the arrangement of the references, therefore, bibliographies and general works are given first, then follow references devoted to particular countries arranged alphabetically. The separate section given to the United States is subdivided along lines mainly historical, and under the heading "Present-day problems" (p. 140-181) will be found a selection from the very great mass of pamphlet literature which recent discussions have called forth. Finally, a considerable number of references covering certain special aspects of the general subject are then arranged under the headings, "Crises (panics)," "Guaranty of bank deposits," "Credit and credit instruments," "Clearing houses," and "Foreign exchange." Minuter subjects should be sought for in the Subject Index, which has been made analytical as far as the character of the entries permitted.

- 894 ——— Suggested plan for monetary legislation, submitted to the National monetary commission, by Hon. Nelson W. Aldrich, as revised by the Currency commission of the American bankers' association. <2d ed.>

[*Chicago? 1911.*] 22 p. 24^{cm}.

Changes suggested by the Currency commission in red letter. Accompanying are Report of the Currency commission to the Executive council of the American bankers' association, and Report of the Special committee appointed by the Currency commission, Mar. 28, 1911, on savings banks, trust companies, and state banks, and their inclusion in the proposed National reserve association.

The Report of the Currency commission and suggested changes in proposed monetary plan is also printed in American bankers' association. Journal, May, 1911, v. 3, p. 643-648. Following p. 648-649 are resolutions of the Executive committee of the trust company section, of the Executive committee of the savings bank section, of the Executive council, and of the Federal legislative committee of the American bankers' association on the proposed monetary plan.

 "The fact of genuine and encouraging progress towards a normal state of things is already well established. That progress I have shown, moreover, to have been achieved through attacking the true cause of the crisis of 1907. That cause was not an imperfect American currency, nor "President Roosevelt," nor even, primarily, unsound banking practice at New York, but the extravagant over-exploiting of capital and credit throughout the industrial world." **HB1.Q3,v.23**

Economist (London), Dec. 26, 1908, v. 67: 1230-1231.
 HG11.E2,v.67
- 1317 **Federal** guarantee of bank deposits: *For* John G. McHenry;
Against J. I. Buchanan.
Banker, Sept. 1908, v. 20: 225-231. HG1501.B2,v.20
- 1318 ***Flagg**, Azariah C. A few historical facts respecting the establishment and progress of banks and the business of banking in the state of New York, from the adoption of the Constitution in 1777 to 1864.
[Brooklyn], 1868. iv, 91 p. 23½ cm.
 Gives a survey of the history of the safety fund system.
- 1319 **Flynn**, Dennis T. Noble state bank, a corporation, plaintiff in error, vs. C. N. Haskell, G. W. Bellamy, J. P. Conners, J. A. Menefee, M. E. Trapp, and H. H. Smock, defendants in error. Brief for plaintiff in error. D. T. Flynn, J. B. Dudley and C. B. Ames, attorneys for plaintiff in error.
[n. p., 1908.] cover-title, 89 p. 23½ cm.
 At head of title: In the Supreme court of the United States. October term 1908.
 9-35395 HG1782.U6F6
- 1320 **Forgan**, James Berwick. Should national bank deposits be guaranteed by the government or by a deposit with the government—in either case the necessary fund to be raised by taxing all the banks on their deposits? An address delivered before the annual meeting of group two of the Bankers' association of the state of Illinois, held at Peoria, June 11, 1908.
[Chicago? 1908?] 28 p., 1 l. 23½ cm.
 Addendum: Benefits claimed to be derived from guaranty of bank deposits, summarized by Hon. A. H. Revell, reviewed by James B. Forgan.
 9-14518 HG1782.U6F8
- 1321 **Fowler**, Charles N. Financial and currency legislation. Speech in the House of representatives, Jan. 27, 1908.
Washington, [Govt. print. off.], 1908. 76 p. 23 cm.
 Deals mainly with the guaranty of bank deposits.
- 1322 **Frame**, Andrew Jay. Insuring bank deposits is purely theoretical, impractical, revolutionary and fatal to conservatism; history condemns it, as presented at the annual banquet of the Cincinnati bankers' club, February 8, 1908, also presented as amended at the State bankers' association of Iowa, June 11, 1908.
[Waukesha? Wis., 1908?] cover-title, 15, [1] p. 22½ cm.
 Introduced into a speech by Senator Smoot, Feb. 28, 1908, see Congressional record, 60th Cong. 1st sess., v. 42.
 9-8061 HG1782.U6F85

- 1323 **Frame, Andrew Jay.** Insuring bank deposits is purely theoretical, impractical, revolutionary and fatal to conservatism, history condemns it. Oklahoma experiences to date. [*Philadelphia?* 1911.] cover-title. 6 p. 25½^{cm}.
"Reprint from 'The Progressive American' for May, 1911."
HG1782.U6F87

The first part of the paper discusses the importance of understanding the cultural context of the research. It highlights the need for researchers to be sensitive to the values and beliefs of the communities they are studying. This is particularly important in the field of education, where cultural differences can significantly impact learning outcomes. The paper then moves on to discuss the challenges of conducting research in culturally diverse settings. It notes that researchers often face difficulties in establishing rapport with participants and in interpreting their responses. To address these challenges, the paper suggests several strategies, including the use of local informants and the development of culturally appropriate research instruments. The final part of the paper discusses the importance of ethical considerations in cross-cultural research. It emphasizes the need for researchers to obtain informed consent from participants and to ensure that their research does not cause harm or exploitation. The paper concludes by noting that while cross-cultural research presents many challenges, it is also a valuable way to gain a deeper understanding of the world and to promote cultural understanding and respect.

the 1990s, the number of people in the world who are under 15 years of age has increased from 1.1 billion to 1.5 billion, and the number of people aged 65 and over has increased from 0.2 billion to 0.4 billion (United Nations 1999).

There is a growing awareness of the need to address the needs of the young and the old in the context of the ageing of the population. The United Nations (1999) has identified the need to address the needs of the young and the old as a key challenge for the 21st century. The World Bank (1999) has identified the need to address the needs of the young and the old as a key challenge for the 21st century.

The World Bank (1999) has identified the need to address the needs of the young and the old as a key challenge for the 21st century.
